ANTARES

39.62m (129'11"ft) | 2008

DESCRIPTION

Her interior wood package is a beautiful raised panel Mahogany which is complimented by her warm and light décor. ANTARES was built with a number of special upgrades that include "Zero Speed" stabilizers. The owner opted for the larger fins for better stability and an upgraded touchscreen control panel.

It has the much desired hardtop and custom storage throughout the vessel including a custom built wine storage under the master berth. The Crestron entertainment system has iPad minis for a modern and streamlined operating system. It also has been synced with the lights, electric blinds throughout the vessel and the CCTV system.

ANTARES has had the same owner since the build that has preserved her to the highest standard. She has never been chartered and is meticulously maintained by her seven crew. The Chief Engineer and Chief Stewardess have both been on board since the build.
