ARMATHIA

30.00m (98'5"ft) | 1989

DESCRIPTION

This luxury vessel's sophisticated exterior design and engineering are the work of Pieter Beeldsnijder Design. Pieter Beeldsnijder designed this luxurious yacht based on a series of successful Dutch-built displacement motor yachts, with a strong steel hull and an attractive, low-maintenance aluminum superstructure that was customized to the original owner's layout specifications.

ARMATHIA was built to high standards and has a classic exterior design. The interior is furnished in traditional American cherry and can be easily renovated to suit individual preferences.

The main deck has an open-plan saloon lounge connected to the interior dining area, and an alfresco dining table at the back, shaded by the flybridge deck above. The flybridge has a large seating area, a barbecue setup, and storage for two tenders with a crane for launching.

ARMATHIA is an economical, reliable Lowland yacht that has been consistently upgraded and renovated. Its spacious deck, functional interior layout, and luxurious accommodations have made it a well-kept secret, used exclusively for private purposes. A modern, integrated aft swim platform makes it ideal for family charters or water sports. She was last refitted in 2004.

ARMATHIA has a beam of 6.40m (21ft) and a 2.7m (8.73ft) draft. She has a cruising speed of 10 knots, max speed of 14 knots and a range of 1,500 nm.

ACCOMMODATION

ARMATHIA can accommodate ten guests in four cabins, all located on the lower deck. This includes a full-beam master suite with an ensuite bathroom, a VIP double cabin, and two twin cabins with additional Pullman berths. The crew of five has separate quarters.
