CASINO ROYALE

32.91m (107'11"ft) | 2004

DESCRIPTION

Renowned for style, craftsmanship and attention to detail, each room on board Casino Royale is as impressive as the last. Her performance is staggering; three 16-cylinder MTU diesel engines totaling at 6,000hp enable Casino Royale to reach up to 45 knots.

Thanks to iconic styling and unmistakable design, it is possible to recognize a Sunseeker at a glance. Step on board Casino Royale and you are greeted by sleek teak decks that flow into the large salon, where it is used decoratively. The spacious salon features roof windows with an impressive 9ft head room, which creates an airy feel in the salon and dining section. This feature allows guests to enjoy formal dining underneath the stars due to her retractable roof. Casino Royale boasts a plush accommodation and colossal entertainment spaces, all complemented above deck by a huge range of integral leisure options.

In 2016, Casino Royale underwent a two-phase extensive refit that lasted for six months and cost approximately 1.5 million euro. The first phase was finished in Malta by April 2016. In the second phase, more than 450 items were listed and replaced, rectified or upgraded in final reports. The second phase began in Autumn 2016 in STP Shipyard in Mallorca and lasted almost three months under a supervision of Palmawatch.
