GALACTICA SUPER NOVA

70.07m (229'10"ft) | 2016

DESCRIPTION

Galactica Super Nova has a fast-displacement aluminium hull with Heesen's Fast Displacement Hull Form and she can achieve up to 30 knots thanks to her Rolls Royce waterjets and twin MTU diesel engines. She has a range of 4000nm at 12 knots.

She was designed to entertain family and friends in the utmost elegance - she comes with a 6m glass bottomed pool on the main deck aft which is separated from the lounge seating area by a waterfall feature. She has a beach club on the lower deck which is lit by the sun rays that shimmer through the pool above and extends into a swim platform aft and a sea terrace to port.

Her interior is filled with a plethora of relaxing and entertaining areas, including several bars and lounges on three guest decks. The main deck plays host to the formal dining area along with a saloon and bar - designed with modern lines accompanied with smooth wood veneers and cream fabrics. The sun deck provides a smart blend of indoor and outdoor living with a bar and open air dining lightly divided by a sliding glass wall. The upper deck offers an alternative outdoor dining area along with a sun lounge with banquette seating aft. Accesses via the Portuguese bridge, the foredeck acts as a touch and go helipad while also showing the latest films on the outdoor cinema with immersive surround sound speakers and a sunbathing area.

One of Galactica Super Nova's highlights is her staircase, extending the full height of the yacht, that spirals around a glass and steel elevator serving the upper and lower decks. Each tread is precisely designed with a curved motif that continues in the wall panels, highlighting the incredible level of detail found throughout.

ACCOMMODATION

Galactica Super Nova accommodates 12 guests in 6 double cabins. Located on the main deck is the full beam master suite that has a modern and sleek interior, with contemporary ambient lighting to supplement the natural light. It also comes with his and her bathrooms, a large walk-in wardrobe and a forward facing berth that dominates the room. The VIP cabin comes with a private study and lounge that doubles as a private staff stateroom. There is also accommodation for up to 16 crew members.
