HEIDENSKIP

25.50m (83'7"ft) | 2005

DESCRIPTION

Built in The Netherlands by Aluboot Hindeloopen for an experienced owner, this remarkable yacht features twin rudders and a hydraulically operated lift keel. The minimum two-meter draught of 2.00m enables Heidskip to navigate shallow waters and enter otherwise inaccessible ports. When the keel is fully lowered, she performs outstandingly under sail due to a maximum draft of four meter and low placed ballast. The twin rudders, positioned at 15 degrees angles, are highly efficient when under heel. The lift keel with a draft between 2.00 and 4.00 makes it possible to go every where.

Heidskip has been maintained to the highest standards by her exceptional crew. In 2013, she received a full paint job, which included the boom and mast. All of her sails are from 2014 and all of her systems are upgraded meticulously.

ACCOMMODATION

Heidskip offers three luxury staterooms, catering to up to six guests. Her owner's cabin offers a French-style bed and en-suite bathroom. Her two additional double cabins also have en-suite facilities. An open living space with high and low seating, an integrated kitchen and a navigation corner will make guests feel right at home on board. The perfect outside cockpit has a double steering position partly covered and well protected by a doghouse. Heidskip's garage is well suited for carrying tenders and toys.
