OCEAN EMERALD

41.00m (134'6"ft) | 2009

DESCRIPTION

Conceived by renowned architect Norman Foster, she was built by Italian shipyard Rodriquez Yachts in 2009 and completely refitted in 2015.

Superyacht Ocean Emerald's unique design, gives an increase in space of 30 percent compared to traditionally designed yachts of her size. The superstructure is placed forward to maximize outdoor terrace space and the interiors are opened to daylight and views. Ocean Emerald provides a playground in the sun with several spacious sundecks with sun beds, loungers and bar. While at anchor, the upper-deck Jacuzzi affords a refreshing dip in between sunbathing and relaxing.

There are two stylish salons both offering incredible interior space. The main deck salon has panoramic windows around. The informal upper deck salon has a 'beach house' feel and is equipped with a bar, game station and a library with over 3000 films. It adjoins the exterior deck, ideal for al-fresco dining. A state of the art lighting system changes the mood from beachy light and bright to sultry lounge bar in seconds.

ACCOMMODATION

Ocean Emerald has five cabins, including a spectacular full-beam master on the main deck with port and starboard private decks. On the lower deck are two VIP double cabins and two twin cabins with an extra Pullman bed each. The different deck levels are linked by a glass spiral staircase, designed to draw daylight down through the guest accommodation.
