SHOCKWAVE

25.70m (84'3"ft) | 2020

DESCRIPTION

Shockwave is a 25.7m motor yacht built by Delta Powerboats in Sweden. An outstanding example of the Delta 88 model, Shockwave is in immaculate condition and is presented for sale by her original owner.

Launched in 2020 and maintained to superlative standards, this luxury motor yacht is a fantastic option for those seeking a family yacht for coastal cruising and, thanks to her shallow draft, she'll island-hop with ease.

Shockwave has accommodation for eight guests in four staterooms. The configuration comprises a master suite, VIP double and two guest twins. All the accommodation is en suite and there are separate quarters for a complement of four crew.

The interior adopts a modern aesthetic with clean lines, chrome finishes and leather detailing. The main saloon prioritises comfort and is open plan to a smart interior dining table.

Meals can be enjoyed al fresco at aft on the main deck, or on the sun deck where there's optional shade. Additional seating and cushioned sun pads are found on the bow.

Shockwave has a top speed of 39 knots and at her cruising speed of 26 knots, offers a 525nm range. Constructed in carbon fibre, Shockwave can also boast class leading fuel efficiency and low engine hours. Commercially compliant, she also offers promising opportunity as a charter vessel.
