## DESCRIPTION

SILVER SEAS provides all that is necessary for a party of eight to cruise inland and coastal waters or venture to offshore islands in great comfort, safety and style. Her hull form and range of 3000 miles includes therefore, transoceanic passages of which she is eminently capable. Featured along with all necessary offshore safety equipment are up to date systems, good speed, moderate draft and a traditional profile with a comfortable, elegant interior. Mechanically and cosmetically SILVER SEAS shows like new and has the range and interior volume of a much larger yacht and aptly demonstrates Burger quality throughout.

One of Burger's best designs beautifully maintained by long time yacht owners. Four staterooms plus separate crew quarters with three cabins; Country Kitchen on main deck; Formal dining; 24' beam with full walkaround side decks; 10,000 gallon fuel capacity.

Total exterior repainted including bottom and superstructure in 2012. Running gear, rudders, stabilizers, and bow thruster rebuilt. Interior refurbished including new entertainment systems with I-pad controls throughout; all new soft goods, linens, mattresses, carpet. Interior woodwork refinished. New navigational components including 5 Green Marine multi-function monitors, 72 mile radars (2), closed circuit cameras including infrared night vision, sat compass autopilot system, Furuno NavNet 3D. Main engines, generators, air conditioning and power management (Atlas) systems updated.

SILVER SEAS is the epitome of "Made in America" by the renowned Burger Boat Company. Call John Todd, Central Agent, for complete details.
