TAJ

24.00m (78'8"ft) | 2003

DESCRIPTION

TAJ is a fast and light catamaran, built of Epoxy glass fibre and carbon structure. Her design is minimalist and she is built for comfort with all charter amenities on board. She is a safe boat capable of 300-350 miles passage per day. She is designed to give a real sailing experience while ensuring maximum comfort. The transverse structure and mast are of carbon fiber in order to keep her strong but light. She is easy to handle with electrical winches, twin helms and a clear view over the coach roof from the cockpit. Her salon offers a fantastic 360° panoramic view and there is dining indoors and outdoors. In 2017/18 TAJ completed a 10 month extensive refit : new bimini, new interior design, new bathrooms, new engines, new generators, new cockpit table, new Awlgrip paint, new water maker, new teak, new rig, new carbon boom, new tender and toys, and so on... Plus all her equipment have been upgraded. Now she is as new, in immaculate condition.
