TATIANA

80.00m (262'5"ft) | 2020

DESCRIPTION

Tatiana is the stunning and truly unique 2020-launched flagship from Turkish shipyard Bilgin Yachts. The largest yacht to ever be launched by the yard, as well as the largest superyacht to be built in Turkey, Tatiana has single-handedly propelled Turkey into a new dimension in the global superyachting stage.

Built by Bilgin Yachts, she launched in February 2020 and will be available for charter this Summer. As the most stand out launch of 2020, and a true pedigree build, Tatiana is reflective of the high-quality yachts on offer in the IYC charter fleet. With the IYC fleet now boasting well over 100 spectacular yachts, making it the biggest charter fleet in the world, high-calibre yachts like Tatiana are reflective of yacht owner's growing preference to work with IYC.

As the largest superyacht ever built in Turkey, Tatiana is epic in her proportions and is certain to deliver one of the most outstanding charter experiences available in the world today. Her 20 crew will ensure world-class service at all times. Tatiana is also considered one of the most environmentally friendly vessels in her class. In compliance with IMO tier III certification, her "eco-friendly" credentials include a special exhaust system with 100% clean air emissions. Silent and stable, she is installed with zero speed stabilizers for comfortable cruising.

Tatiana's beautiful interior has been finished by the world famous H2 Yacht Design Studio. Sumptuous, but not ostentatious, her interior design philosophy is described as "timeless understatement", with a focus on functional luxury throughout all her living spaces. Contrasting details are created with a combination of lustrous Macassar ebony, marble and eucalyptus to create elements of subtle grandeur.

ACCOMMODATION

With eight cabins, guest accommodation is arranged as a master suite, which is located on its own private owner's deck, two VIP staterooms, four double cabins and a twin cabin plus an optional extra double cabin forward of the owner's suite, ideal for children. The master is found on a dedicated owner's deck, which features a large en suite, private living room, fore and aft outside spaces and a private Jacuzzi. Guests have the choice of two living spaces on the main and upper decks, with a vast main salon incorporating a lounge area and formal dining space. A stand out benefit of her forward-thinking layout is the direct access from the main salon to the beautiful beach club, ensuring seamless guest movement between all key guest spaces - this is form and function at its best.
